¹ Please pull data from your regular assessment systems and report in this standardized table if possible. It is **extremely helpful** to candidates to be able to see common sets of data from different school systems.

² Please indicate groups or grade levels for which you are providing data. This should include a **representative** sample of the young people in your system, and should include a) aggregate data from all young people in the system b) disaggregated data for significant subgroups. You DO NOT need to report data for every grade level.

³ Please report **percentage proficient** or above in English/Language Arts and Math. Please use data from your state's standardized end-of-year achievement assessment or other nationally accepted end-of-year achievement assessment.
